

Testing Instructions

Carefully select 9 balls before beginning to use for the test - once you have played a particular ball you won't be able to play it again until the next distance.

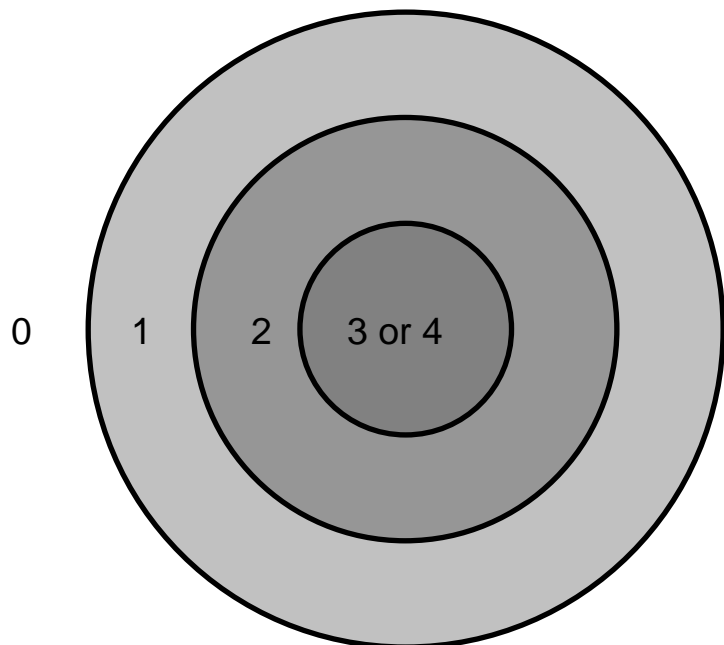

Jack Placement:

- Aim to centre of target
- Points allocated as shown
- If not sure of which score when it is on the line, then look directly ball and score where most of it is over hanging.
- If ball has equal in both, take the lowest score option

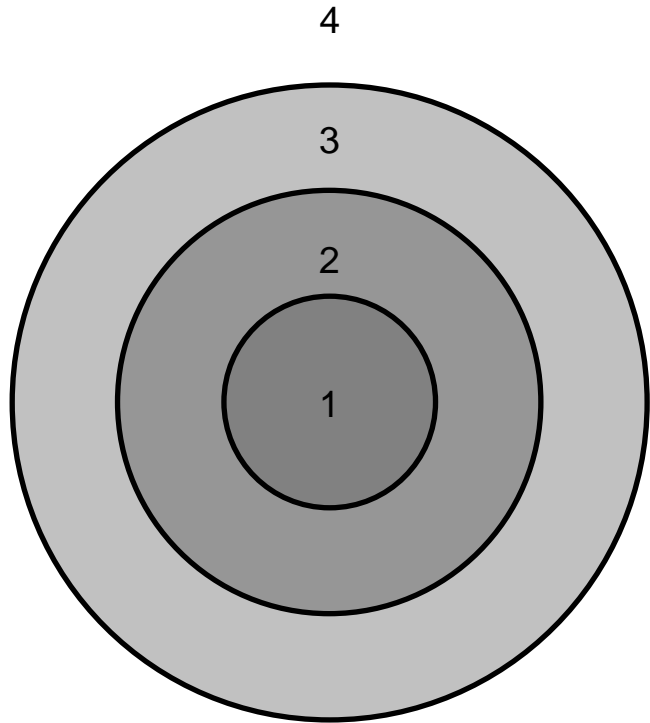

Drawing:

- Place jack in centre of target
- Aim at jack
- Points allocated as shown
- Score 4 points if ball is touching jack or within 1cm. Otherwise score 3.
- If not sure of which score when it is on the line, then look directly ball and score where most of it is over hanging.
- If ball has equal in both, take the lowest score option.
- Remove ball after shot and replace jack if moved.
- If jack moves off centre circle, score where coloured ball ends up, and take off point for each section the jack has moved.

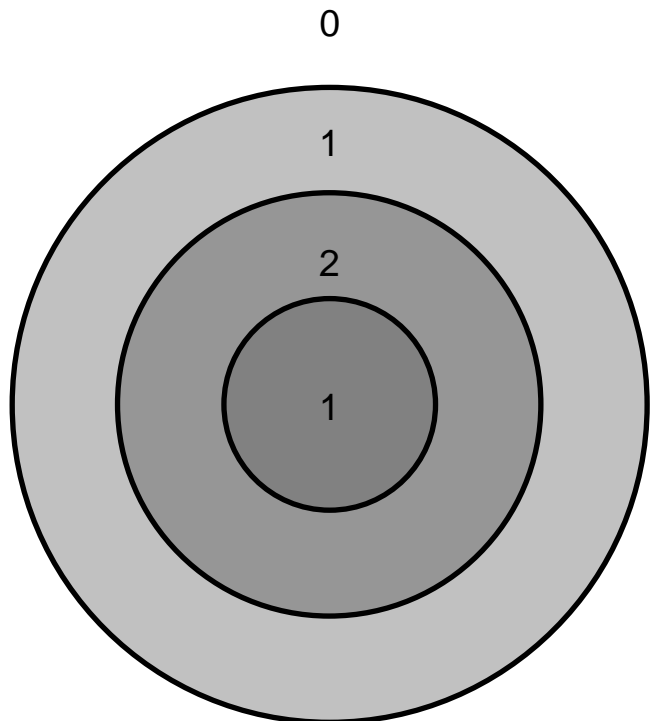

Driving:

- Place jack in centre of target
- Aim to drive the jack off the target
- Points allocated as shown – this is where the jack ends up if hit.
- Score 4 points if jack is knocked off the target
- If not sure of which score when it is on the line, then look directly ball and score where most of it is over hanging.
- If ball has equal in both, take the lowest score option.
- It does not matter where the ball you played ends up.
- Remove ball after shot and replace jack if moved.

Running Shot:

- Place jack in centre of target
- Aim to drive the jack off the target
- Points allocated as shown – this is where the jack ends up if hit.
- Score 0 points if jack is knocked off target
- If not sure of which score when it is on the line, then look directly ball and score where most of it is over hanging.
- If ball has equal in both, take the lowest score option.
- It does not matter where the ball you played ends up.
- Remove ball after shot and replace jack if moved.
